2.2	Human Capital and the Business of You, Inc.	40
2.2.1	Estimating Human Capital	40
2.2.2	Human Capital is a Wasting Asset	40
2.2.3	Human Capital Risk	41

2.3	Investments in Human Capital	42
2.4	Education and Human Capital	42
2.5	Demand, Supply and Scarcity	46
2.5.1	Scarcity and Barriers to Entry	49
2.6	Income and Leisure Time	50
2.7	Summary	50
2.8	Review Questions	51
2.9	Problems	52
3	The Life-Cycle Model	53
3.1	Introduction: The Life-Cycle Model	53
3.2	A Two-Period Life-Cycle Model	54
3.3	Maximizing Your Economic Happiness with Consumption Smoothing	61
3.4	Constructing an 80-Period Life-Cycle Model	64
3.4.1	Case Study of the 80-period Life-Cycle Model: Roxanne	64
3.4.2	Incorporating Initial Assets and Bequests	67
3.4.3	An 80-Period Life-Cycle Model with Uneven Wages	68
3.4.4	Case Study: Borrowing against Uncle Elwyn’s Inheritance	70
3.5	Borrowing Constraints	72
3.6	Summary	73
3.7	Review Questions	74
3.8	Application/Practice	74
4	Thinking in Present Value	76
4.1	Introduction: Savings, Investment, and Interest	76
4.2	Financial Intermediation	77
4.3	The Future Value of a Lump Sum	79
4.4	The Present Value of a Lump Sum	82
4.5	The Frequency of Compounding	85
4.6	Paying on Time and Multiple payments	88
4.6.1	Finding the Present Value of an Annuity	89
4.7	Loans and Loan Payments	91
4.8	Bonds and Bond Pricing	96
4.8.1	Bonds with Coupons	97
4.8.2	Discount and Premium Bonds	98
4.8.3	Zero-Coupon Bonds	99

4.9	Inflation and Purchasing Power	99
4.10	Inflation Indexed Bonds	103
4.11	Summary	105
4.12	Review Questions	105
4.13	Problems	106
4.13.1	Time Value of Money	106
4.13.2	Loans and Loan Payments	107
4.13.3	Bonds	108
5	The Life-Cycle Model with Interest	109
5.1	Incorporating Time Value of Money into the Life-Cycle Model	109
5.2	The Two-Period Life-Cycle Model with $r > 0$	109
5.3	Implementing an 80-Period Life-Cycle Model with $r > 0$	111
5.4	The Level of Real Interest Rates Affects the Lifetime Budget Constraint	115
5.5	Incorporating Interest Rates with Income in Both Periods	116
5.6	Implementing an 80-Period Life-Cycle Model with $r > 0$, Initial Assets and Bequests	119
5.7	Summary	121
5.8	Review Questions	121
6	Borrowing Constraints	123
6.1	Introduction: Borrowing Constraints	123
6.2	Borrowing Constraints in the Life-Cycle Model	124
6.3	Consumption Smoothing Under Borrowing Constraints	127
6.4	Computational Time	130
6.5	Dynamic Programming	131
6.6	Dynamic Programming: Some Numerical Examples	133
6.6.1	A Three-Period Life Cycle	134
6.6.2	A Four-Period Life Cycle	136
6.6.3	Incorporating Initial Assets	138
6.6.4	A Four Period Life-Cycle with Multiple Periods of Borrowing Constraints	139
6.7	Violations of Borrowing Constraints	141
6.8	Summary	142
6.9	Review Questions	142
7	Uncle Sam and You	143
7.1	Introduction	143

7.2	Fundamental Concepts of Taxation	144
7.3	Federal Income Tax in the United States	146
7.4	Other Income Taxes	150
7.5	Social Security Benefits	151
7.6	Incorporating Taxes and Benefits into the Lifetime Budget Constraint	153
7.7	The Life-Cycle Model with Taxes: A Spreadsheet Solution	156
7.7.1	Section A: The Life-Cycle Model	157
7.7.2	Section B: The Tax Calculator	159
7.7.3	Section C: Federal Marginal Income Tax Calculations	160
7.7.4	Implementing the Annual Budget Constraint	160
7.7.5	Using Goal Seek to Solve for Smooth Consumption	161
7.8	Summary	162
7.9	Review Questions	163
7.10	Problems	164
8	Making the Life-Cycle Model Real	165
8.1	Introduction	165
8.1.1	Challenges in Implementing the Life-Cycle Model	166
8.2	Economic Security Planner	167
8.3	ESPlanner Case Studies	169
8.3.1	Case Study: Young Single Person	169
8.3.2	Overview of ESPlanner Reports	177
8.3.3	Case Study: Middle-Aged Single Homeowner	185
8.3.4	ESPlanner Inputs: Middle-Age Single Homeowner	186
8.3.5	ESPlanner Results: Middle-Age Single Homeowner	186
8.3.6	Case Study: Married Couple with Children	188
8.3.7	ESPlanner Inputs: Married Couple with Children	190
8.3.8	ESPlanner Results: Married Couple with Children	192
8.3.9	Case Study: Building an Emergency Fund	195
8.3.10	Control Case: No Emergency Reserve Fund	196
8.3.11	Goal Case: Saving \$50,000 Emergency Fund in Two Years	196
8.4	Summary	199
8.5	Review Questions	199
8.6	Case Studies to Try On Your Own	199
9	Applied Life-Cycle Economics	201
9.1	Personal Financial Planning Applications	201
9.2	Applied Life-Cycle Methodology	202

9.3	Case Studies: Investments in Human Capital	203
9.3.1	Case Study: Electrician	204
9.3.2	Case Study: Computer Programmer	205
9.3.3	Case Study: Family Practice Doctor	207
9.3.4	Case Study: The Apple Genius	209
9.3.5	Concluding Remarks: Guidance for Investing in Human Capital	210
9.4	Student Loans and Repayment Options	210
9.5	Where Should You Live?	213
9.5.1	Case Study: Dallas or Chicago?	213
9.5.2	Control Case: Living in Dallas	215
9.5.3	Alternate Case: Living in Chicago	215
9.6	Summary	217
9.7	Review Questions	217
9.8	Problems	218
10	Investing in Stocks	219
10.1	Introduction: Investments in Financial Securities	219
10.1.1	Risk and Return	220
10.1.2	Historical Returns	221
10.2	The Mechanics of Stock Market Investments	223
10.2.1	Investing Strategies	226
10.2.2	Bad Ideas about Investing in Stocks	227
10.2.3	Other Dangerous Investment Strategies	228
10.3	Are There Good Ideas for Investing in Individual Stocks?	230
10.4	The Random Walk Theory	232
10.5	A Quick Methodology for Individual Stock Selection	233
10.5.1	Investment Research	234
10.5.2	A Simple Approach	234
10.6	Mutual Funds	239
10.7	Summary	244
10.8	Review Questions	245
10.9	Problems	245
11	Metrics for Stock Market Investors	246
11.1	Introduction: Overview of Statistics for Investors	246
11.2	Quantifying Historic Stock Returns	247
11.3	The Statistical Distribution of Stock Returns	252

11.4	Diversification and Correlation	254
11.4.1	Correlation is the Secret to Effective Diversification	254
11.4.2	Diversification in Practice	255
11.4.3	Diversification and Portfolios	256
11.5	Inflation Risk and Stocks: The Verdict of History	258
11.5.1	Do Stocks Really Protect Against Inflation?	259
11.6	Modern Portfolio Theory and the Efficient Frontier	260
11.6.1	Risk Free Assets and the Tangency Portfolio	261
11.6.2	Implications for Investing	262
11.6.3	Criticism of Modern Portfolio Theory	263
11.7	Summary	263
11.8	Review Questions	264
11.9	Exercises	264
12	Risk of Investing in Stocks: The Truth	266
12.1	Conventional Wisdom: Stocks are not Risky in the Long Run	266
12.2	Monte Carlo Simulation	267
12.2.1	Implementation of the Monte Carlo Process	268
12.2.2	Using Confidence Intervals to Estimate Future Stock Market Investment Value	274
12.3	Asset Allocation	275
12.4	Living Standard Risk	280
12.5	Upside Investing	282
12.6	Summary	286
12.7	Review Questions	286
13	Risk, Risk Management and Insurance	288
13.1	Introduction	288
13.2	What is Risk?	289
13.3	Backgrounder: Probabilities and Expected Values	290
13.4	The Risk Management Process	292
13.5	Case Study: The Risks Affecting a Recent College Graduate	292
13.6	Risk Management Techniques	293
13.7	Protecting Your Human Capital	299
13.7.1	How Much Life Insurance Do You Need?	300
13.7.2	Life Insurance Product Solutions	304
13.7.3	Disability Could Impact Your Human Capital	307

13.8	Protecting Your Assets	309
13.8.1	Renter's Insurance	309
13.8.2	DICE	311
13.8.3	Automobile Insurance	313
13.9	Your Emergency Fund	315
13.10	Summary	317
13.11	Review Questions	318
13.12	Problems	319
14	Planning for Retirement	320
14.1	Introduction	320
14.2	Longevity	321
14.2.1	Solutions to the Financial Consequences of Longevity	322
14.3	Defined Benefit Pension Plans	323
14.4	Defined Contribution Retirement Plans	325
14.4.1	Types of Defined Contribution Plans	326
14.4.2	Special Tax Treatment for DC Plans	327
14.5	Case Study: Participation in 401(k) plans	330
14.5.1	Should James save through his employer's 401(k) plan? The baseline profile	331
